

ASHUTOSH GUPTA

Software Developer — Full-Stack & Cross-Platform Mobile

Prayagraj, Uttar Pradesh, India | ✉ ashutoshg780@outlook.com | +91-9651819510 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Developer with hands-on experience across mobile, web, and backend systems — from cross-platform apps in Kotlin Multiplatform and Flutter to full-stack platforms built with Angular, NestJS, ASP.NET, and React. Delivered 10+ production applications from scratch, including a 42-screen B2B SaaS fleet-management platform, a multi-tenant ERP/CRM with integrated Stripe payments, and an ML-powered face-recognition attendance system (99.65% accuracy) serving 7,000+ users. Comfortable owning a feature end-to-end — UI, APIs, database design, and third-party integrations — with a strong focus on clean architecture and production reliability.

TECHNICAL SKILLS

Programming Languages: Kotlin, Dart, C#, TypeScript, JavaScript, Python, PHP, Java

Mobile: Android SDK, Kotlin Multiplatform (KMP), Compose Multiplatform, Jetpack Compose, Flutter, MVVM/MVI/Clean Architecture, Riverpod, Koin, Hilt, Coroutines/Flow/StateFlow, Room, BLE, ML Kit, CameraX, Push Notifications (FCM)

Web & Frontend: Angular, React, HTML/CSS, Bootstrap, Tailwind CSS, jQuery

Backend: NestJS, ASP.NET (MVC & Web Forms), Node.js/Express, Python (FastAPI, Flask)

Database & ORM: SQL Server (T-SQL, Stored Procedures), MySQL, Prisma, Firebase (Firestore, Auth, Storage, Cloud Functions)

Integrations & Payments: Stripe, PhonePe, Shopify Storefront API, REST APIs, Ktor, Retrofit, Dio

Tools & Deployment: Git/GitHub, Azure DevOps, IIS, Postman, Android Studio, Play Store Deployment

EXPERIENCE

Full Stack Software Developer (Mobile Application Specialist)

Apr 2026 – Present

Digital Dream Systems | Prayagraj, India

- Built Construction Builder Solution, a UK construction-certification booking platform with an internal CRM (Angular 21 + NestJS + Prisma + MySQL), including Stripe payment/webhook integration and agent/lead/order management modules.
- Developing iCampus Pro (in progress), a multi-tenant Flutter ERP/LMS app for colleges (Android/iOS/web/desktop) using Riverpod, GoRouter, and Clean Architecture.
- Added new features, enhanced existing functionality, and fixed a wide range of bugs across multiple client websites — St. Francis School, iCampus Fees WebApp, unitedmedicity.com, and an Angular admin panel — including real-time SSE dashboards, Shopify headless commerce setup, SQL Server performance tuning, and SEO/prerendering fixes.

Application Developer (Mobile Applications)

Nov 2025 – Jan 2026

Evatoz Solutions Pvt. Ltd. | Noida, NCR

- Spearheaded EVA2Z Connect migration to Kotlin Multiplatform (KMP), achieving 85% code sharing between Android and iOS using expect/actual patterns, MVVM architecture, Ktor networking, and unified storage interfaces (DataStore/NSUserDefaults).
- Built cross-platform features with Jetpack Compose (CMP) including PhonePe payment integration, GPS tracking (Google Maps/MapKit), QR/barcode scanning, and FCM notifications for EVA2Z Connect and FleetA2Z.
- Optimized app performance by reducing APK size from 81.6MB to 20-25MB, eliminating ANR errors, and resolving Google Play Protect blocking via the SMS Retriever API; collaborated with backend teams (PHP, Laravel, MySQL) for API integration.
- Managed Git version control with detailed, technically thorough commits, coordinating Play Store releases with proper signing configurations.

Full Stack Android Developer & ML Integration Specialist

Nov 2025 – Apr 2026

Niharika Enterprises — Project: Niharika Attendance System | Prayagraj, India

- Architected an AI-powered face-recognition attendance system achieving 99.65% accuracy using Jetpack Compose, MVVM, Firebase (Firestore, Storage, Auth, Cloud Functions), and on-device ML Kit with DeepFace — reducing operational costs from ₹3,290/month to ₹0.
- Built role-based authentication (User/Admin), intelligent Entry/Exit attendance logic, a monthly calendar with color-coded indicators, CameraX integration, and real-time Firebase sync via addSnapshotListener.
- Deployed to Google Play Store production after closed testing with 20+ testers, using Firebase Cloud Functions for serverless ML processing and production-ready error handling and logging.

Application Development Intern

Aug 2025 – Oct 2025

Evatoz Solutions Pvt. Ltd. | Noida, NCR

- Modernized the EVA2Z Connect app using Jetpack Compose, MVVM, and Compose Multiplatform, improving UI fluidity, performance, and multi-device compatibility; implemented FCM notifications, QR/barcode scanning, and payment verification.
- Enhanced a legacy Play Store app by upgrading 4KB modules to 16KB modular pages for scalability and compliance, and designed responsive layouts with Jetpack Compose for faster load times.
- Collaborated via Git and RESTful APIs for backend synchronization, code reviews, and streamlined app release cycles through Firebase and Play Store deployment.

Full Stack Android Developer (Client/Live Project — MCA Major Project)

Dec 2024 – Aug 2025

Niharika Enterprises — Project: Niharika ALL For One | Prayagraj, India

- Designed, developed, and deployed a Complaint Management System for Niharika Enterprises, streamlining internal workflows for complaint handling, warranty tracking, and spare-parts management through real-time automation.
- Implemented data-driven dashboards and notification systems to improve operational visibility, response time, and overall service efficiency.
- Maintained continuous delivery from May to August 2025, ensuring performance, stability, and scalability across updates.

PERSONAL PROJECTS

WayGo — B2B SaaS fleet & transport management app — Kotlin Multiplatform, Compose Multiplatform Material 3, MVI, Koin DI. 42 screens across Driver/Rider/Fleet Admin/Company Admin roles.

Margie Hall App — Android hall-booking marketplace with Admin/Owner/Booker roles — Kotlin, Jetpack Compose, PHP, MySQL.

KEY PROFESSIONAL PROJECTS

Construction Builder Solution — UK construction-certification booking platform (CSCS/CITB/NVQ) + admin CRM — Angular 21, NestJS, Prisma, MySQL, Stripe payments/webhooks.

iCampus Pro (In Development) — Multi-tenant Flutter ERP/LMS for colleges (Android/iOS/web/desktop) — Riverpod, GoRouter, Dio, Clean Architecture, custom Stitch design system.

EVA2Z Connect / FleetA2Z — Cross-platform GPS/EV tracking app — KMP, Compose Multiplatform, Ktor, PhonePe, Firebase, ML Kit. Published on Play Store.

Niharika Attendance System — Face-recognition attendance app — Jetpack Compose, Hilt, Clean Architecture, Python FastAPI + DeepFace ML backend serving 7,000+ users. Published on Play Store.

iCampus Fees WebApp — School fee-management ERP — ASP.NET MVC, SQL Server, OTP-based password recovery, iTextSharp PDF ID cards/receipts.

Construction Card Support — Payment processing module — .NET Core, Angular, PayPal (hosted page & Card Fields API integration analysis).

Premium Ceramic Crockeries — Headless e-commerce setup for a ceramics retailer — Shopify Storefront API.

ACADEMIC PROJECTS

eDu Solution Assistant — Backend Developer & System Designer — Android learning app; built backend API and data flow for content delivery and student feedback (Python/Flask).

Student Management Portal — UI/UX & Frontend Visual Designer — responsive interface (CSS/JavaScript) for academic document management.

Padma College of Expertise — Full Stack Desktop Application Developer — Java/MySQL desktop app for student registration and subject selection, built independently.

EDUCATION

Master of Computer Applications (MCA) | Indira Gandhi National Open University (IGNOU)

Oct 2023 – Oct 2025

Bachelor of Computer Applications (BCA) | Ewing Christian College, University of Allahabad

Nov 2020 – Sep 2023

CERTIFICATIONS & COURSES

- Android App Development with Kotlin — GeeksforGeeks
- Data Science using Python — NIELIT Gorakhpur
- Cyber Security & Ethical Hacking — NIELIT Haridwar
- Web Application Development Using Apache, MySQL and PHP — NIELIT Haridwar
